Sail Area: 140 Sq. Ft.

Designed by Nathaniel G. Herreshoff as a boy's training boat for the waters in Buzzard's Bay. The boat was built for yachtsman that wanted a boat for their children that was easy to handle. Over 3000 have been built over the years and are still being made in fiberglass versions today. Called the 12 1/2 for the length of the waterline of the boat.
