

MOTOR YACHT

1930

Motor yachts were very popular in the 1920's and 30's. Companies on the east coast were building this style for wealthy businessmen to commute from their homes to work in New York. Several boatyards in Seattle made these very popular styles of cruisers which were perfect for Northwest waters and weather. Norm Blanchard and Lake Union Drydock and Machine Works were just two of the boatyards that built this style of yacht. While our model is not fashioned after a specific manufacturers boat, it is similar in style to many of these fine yachts that still grace the waters of Puget Sound today.
