

Marshall Cat boat

Instructions:

Follow these instructions carefully and step by step. The rigging lines of the boat could tangle easily so do not undo the lines until instructed.

1. Unwrap the hull and stand. Place the hull into the stand with the hull facing forward to your right. Keep the starboard side of the boat facing you in order to follow the instructions and to compare with the diagrams.
- 1a. Study the cleats A, B, C and D1, D2 and brass traveler on the deck and top cabin in diagram (1). They each have a fixed position that corresponds to different rigging lines and sail sheets of the boat. See diagram (1).
2. Unwrap the packing of the mast, find two brass group eyes and eyes G1, G2, G3 on the mast. **The brass eyes must face towards the stern of the boat.** Insert the mast into the mast step on the deck.3.
3. Unpack the sail. You may want to press the sail with an iron to get out any wrinkles. Put the pin at the end of gaff pole to the two group eyes on the mast. Study the peak halyard lines on the gaff. Attach the 1st hook of the line to G1, the 2nd hook to G2, lead the end of the line through the eye hole near the bottom of the mast (Starboard side), then fix the line on cleat A by a cross and around way.
- 3a. Please find two lazy lines at P & S side sail. Hang up the hooks to eye G3 on the mast, lead the end of the lazy lines through the eyes near the bottom of the mast (P & S), fix the end of the lines on cleats B & C by a cross and around way. See diagram (1) & (2).
4. Set the pin at the end of boom to a brass hole near the bottom of the mast, secure the other end of the boom by attaching the hook on the line to the traveler, leading the end of the line through a block, fix the line cross and around the cleat right up on the tiller. See diagram (2).

Your Sail Classics yacht should now be complete. Enjoy!
